

## PRINTABLE DOWNLOADS - PERSONAL LICENCE

Under the terms of our Personal Licence, you MAY:

- Use this file on any personal computer that you own in order to print out copies of the pages contained in the file.
- Use those printed pages in your own hand-crafted artwork such as scrapbook pages, greetings cards or mixed media pieces (for example).
- Sell the items that you make using the printable pages, so long as the item is handmade by you (e.g. an individual greeting card or scrapbook page) and isn't simply a printed copy of one or more pages from the file. This includes selling your own artwork at craft fairs, charity stalls or online (e.g. through an etsy shop).
- Submit finished artwork to magazines or websites for inclusion in project pages or articles, so long as you provide the publisher with details of the particular designs or printable products that you have used and make it clear that these are Craftations products.
- Make a backup copy of the printable file (on a USB or external disk or similar physical media) for your own use in the case of computer failures or similar problems.

You MAY NOT:

- Print out and resell pages or share copies of them or give them away to other persons.
- Give or sell electronic copies of the printable file or its contents to other persons, whether that is by means of copying the file to a USB or other physical device or by transmitting the file electronically via email or by uploading it to bulletin boards, forums or similar systems.
- Electronically change or modify the file or any of the pages or designs contained within it using image-editing programs or other software, other than adding text or similar elements where the file itself includes designs that provide a mechanism for you to do so.
- Use the file to produce artwork that is then scanned, digitised or otherwise used for mass reproduction, commercial printing or any form of electronic distribution (paid or free downloads, etc.)
